CroNoMar d.o.o. is Croatian company in Norwegian ownership; an innovative company founded with aim of identifying and realizing new business opportunities in order to establish partnerships - collaborations between Norwegian and Croatian companies within marine/maritime sector and related industries.

CroNoMar mission is both to make connections between such companies and to assist them in establishing and carrying out real operational partnerships from early stage until commercialization with focus on creating and promoting new business activities, development of new products, services, business models.

We can assist you at every step along the way: from the idea stage and inception to business development and commercialization including identifying potential relevant business partners in Croatia, providing QA both for partners and products/services, providing supervision activities, and many more...

CroNoMar as part of its activities is managing an innovating incubator within Maritime Innovation Centre in Šibenik – iNavis; as an integrated innovation network assisting start-up companies and existing companies through consulting, courses and networking. We follow companies from early stage and help them grow into sustainable enterprises.
