M3connect Germany is already 13 years present on the market providing internet services and today is one of the biggest internet providers in Germany.

The basic activity of company is providing WLAN and AAA (Authentication, Authorization, Accounting) services in tourism and nautical tourism industry like hotels, marinas, etc.

Following the global trends, the company is developing its own advanced technology solutions within internet, telecommunication, marketing, signalization for their users.

Integrating our long experience and knowledge, we develop completely new concepts and innovative products. Users of our products are both startup companies and big, global cooperations like Daimler AG, Group of Accor Hotels with all its brands: Ibis, Mercure, Sofitel, Novotel, Pullman, etc, and many international fairs, airports, other public and private facilities. At the moment we are providing support service for over 500 Hotspots, more than 8000 installed access points and 200 active components.
